ABSTRACT

This report presents the results of a survey of basic student charges for institutions of the State University of New York. The total student costs consist of fixed costs (tuition and fees) and variable costs (room, board, books, personal items, transportation, and miscellaneous). The data were collected with the cooperation of the campus Financial Aid Offices, and there may be substantial differences between the figures listed for the variable costs and the actual expenditures of an individual student. Tables present the following data: (1) trends in student tuition by program level and other charges, from pre-September 1963 to 1989-90; (2) summary of tuition charges per academic year, 1963-64 through 1989-90; (3) trends in tuition and required fees, 1980-81 through 1989-90; (4) trends in basic student charges, 1980-81 through 1989-90; (5) trends in the distribution of other basic student charges: books and supplies, transportation, personal, and miscellaneous, 1980-81 through 1989-90; and (6) total undergraduate charges and allowances, 1989-90. INTRODUCTION

This report presents the results of the survey **Basic Student Charges** for institutions of the State University of New York. These data are collected annually in the fall of each year by the Central Staff Office of Institutional Research.

The total student costs consist of fixed costs (tuition and fees) and variable costs (room, board, books, personal items, transportation and miscellaneous.) These data are collected with the cooperation of the campus Financial Aid Offices and represent the dollar figures that are used in putting together the financial aid packages for students. There may be substantial differences between the figures listed for the variable costs and the actual expenditures of an individual student since the amount spent will be dependent upon the program the student is enrolled in, individual tastes, and funds available.

Table 89/1743 in Part I enumerates the fixed costs since the inception of standard tuition charges across the State-Operated institutions, as well as some of the more basic variable costs for students living in dormitories. The tables in Part II list trends in all basic student charges for student at all institutions that comprise the State University of New York since 1980.

We would like to thank those individuals on the campuses who are responsible for providing this office with timely and accurate data. The collection of this information required their extensive cooperation and continued support. Our gratitude is also extended to members of our staff who aided in this publication: to Susan Wendover for entering data into the database; to Gary Blose for aid in maintaining the computer programs utilized; and to our secretarial staff of Vikki Mazzone and Claudia Fleming who were responsible for assembling the final manuscript and the proper distribution of the publication.

FIXED CHARGES

Fixed charges in this report are those required of all full time students, regardless of their program. Differing charges would be applicable to part time students. Certain assessed charges, e.g. lab fees required within certain programs, are not enumerated since they are not applicable to all students. Table 90/2 lists these charges by institution and institution type for the last ten academic years.

Tuition

Tuition and the required college fee are set by the State University Board of Trustees for all institutions except the Statutory Colleges and Community Colleges. The history of these charges as set are enumerated in Table 89/1743. This table also lists the credit hour charges used to determine tuition for part time students at these institutions. The rate of tuition at the Statutory Colleges at Cornell and Ceramics are set by their respective Trustees after consultation with the State University Board of Trustees. The tuition rates at the Community Colleges are established by each of their respective governing bodies but cannot exceed $1,350 (the rate charged resident students at the state-operated institutions) for full-time resident students; the rate for out-of-state students can be up to three times the in-state rate at these institutions.

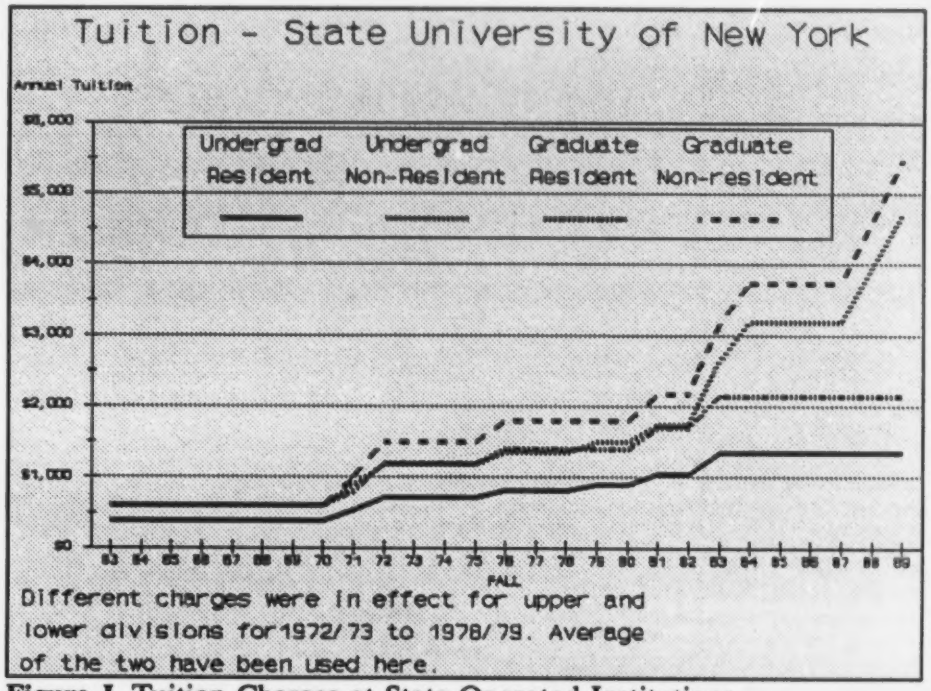

Figure I. Tuition Charges at State-Operated Institutions

For this academic year, resident students at the state-operated institutions paid the same tuition rate that has applied since the 1983-84 academic year. Tuition charges for non-resident students were incremented by the same amount as last year

($750 for undergraduates and $865 for graduate students.) Figure I illustrates the stepwise pattern followed in tuition charges at these institutions since 1970 - constant for a period of time interspersed by stepwise increases. Increments were also made this year to tuition charges for non-resident students in the professional programs - these are enumerated in table 89/1743.

Moderate increases in tuition for 1989-90 occurred at all the Statutory colleges for both resident and non-resident students.

Tuition charges for resident students were raised to the maximum $1,350 at six more of the Community Colleges for this year. Twenty three of these thirty institutions are now at this maximum rate. In all, tuition charges increased within this sector for nine institutions with the increases ranging from $25 to $125 for an average increase of $51. Graph G89/20 illustrates the trend in tuition for this sector compared to the state-operated campuses.

College Fee

A standard $25 college fee is charged to all full time students in the State operated institutions excluding the Statutory colleges.

Student Activity Fee

With the exception of Ceramics, each SUNY institution has a mandated student activity fee for undergraduate students. This fee varies by institution but is generally used to cover a spectrum of activities which may include recreational and social activities, musical groups, athletic activities, student publications, theatrical productions, class activities, etc. This year's fee ranges from a low of $12 per academic year to a high of $210 with an average of $86.

Other Required Fees

This category of expense covers any other fees that are required of so large a proportion of students at an institution that the student who does not pay the fee is an exception to the rule.

VARIABLE CHARGES

Items in the variable cost category are itemized separately for three cohorts of students: those living in campus residence halls, those living in non-institutional housing in the community, and commuter students living at home.

Room and Board Charges/Allowances

For residence hall students, the reported room charges represent an average charge for a double room. Of the 31 State operated institutions, three are non-residential colleges: Empire State College, the College of Optometry and the College

of Technology at Utica/Rome. Students attending one of the five statutory colleges receive room and board through the endowed college counterpart. Syracuse University provides room and board facilities for students at the College of Environmental Science and Forestry. With increased flexibility being given to the institutions, the room charges at the remaining 22 State-operated institutions are no longer the same fixed charge at each institution as was the case in the past. Since the 1986-87 academic year, room charges have been determined individually at each campus with approval by the Board of Trustees.

With the exception of the Brooklyn Health Science Center and Syracuse Health Science Center, meal plans are also available at the residential colleges. Meals are typically provided by a campus affiliated faculty student association with a variety of plans being offered. The tabulated costs in this publication are for the modal board charge on each campus. A comparison of the combined room (standard double) and modal board charge for the last ten years is shown in Table 1.

Fashion Institute of Technology and Mohawk Valley Community College are the only community colleges that have dormitory facilities for students.

As noted earlier, the room and board allowances reported by the campuses for students living in the community in non-institutional housing and for those students living at home represent average amounts used in constructing a student budget. The charges listed in this publication for room and board for students living on campus will closely approximate actual costs. However, there is considerable variation in ways

of determining the allowances specified for those living in off-campus facilities or at home. Likewise, there may be wide differentiation between these allowances made and the actual costs incurred.

Other Student Costs

This represents the remaining costs to students and is broken down into the following categories:

- Books and supplies
- Transportation
- Personal items
- Miscellaneous

These items will vary the most in dollar size amongst students. Again, the amounts reported are those used to construct a student budget. The methodology used by each financial aid office to determine a student budget may vary from one year to the next. Therefore, for making comparisons, either year by year for a given institution, or in comparing two different institutions, one should look at costs in their totality as well as individual allowances.

Separate listings for each category are found in table 90/4; totals of other student costs are in table 90/3.

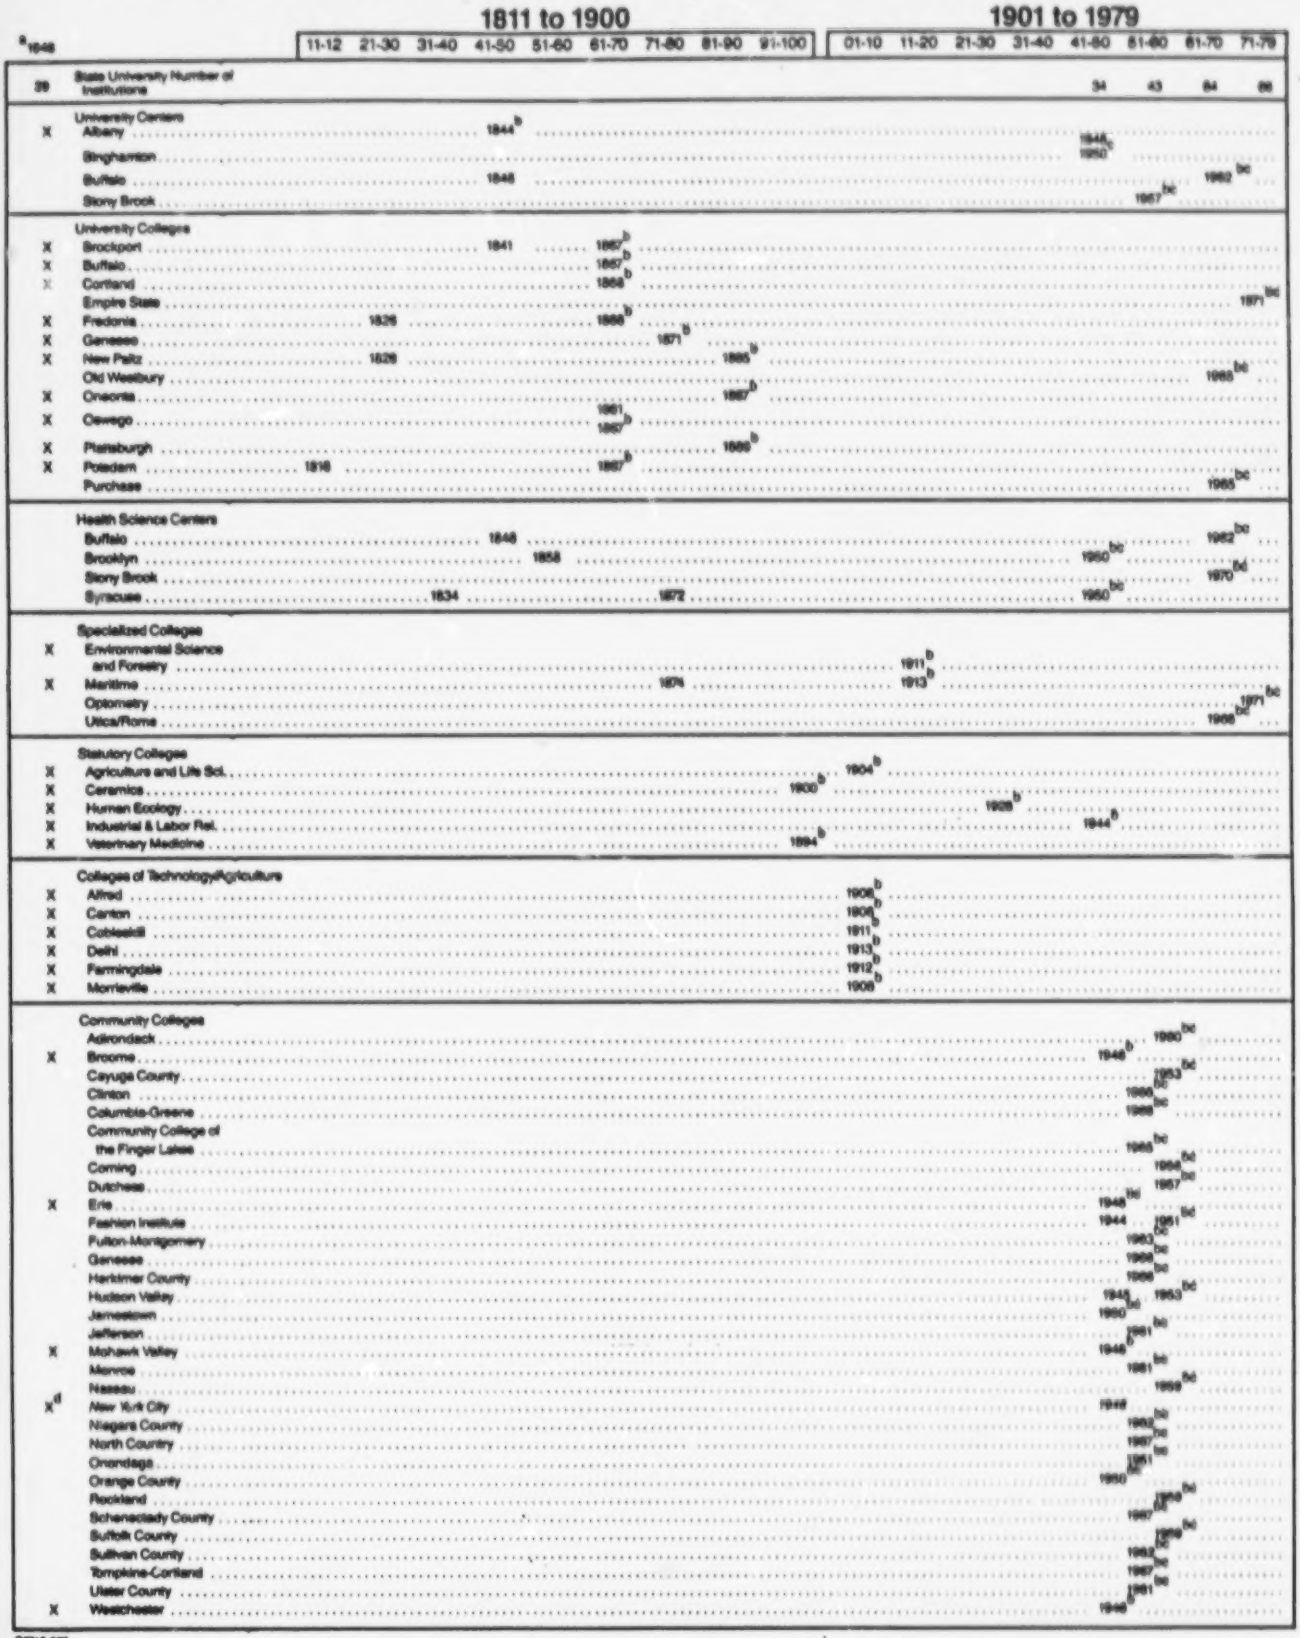
Chronology of Dates of Establishment of Institutions of the State University of New York



C3743-987

FOOTNOTES

[a]Original constituent institutions of the State University of New York at its establishment in 1948.

[b]Date of establishment as a state college or institution.

[c]Date of incorporation into State University of New York.

[d]As of July 1, 1975, New York City Community College and the other community colleges (not shown here) sponsored by the New York City Board of Higher Education were no longer a part of the State University of New York.

NOTE: Dates preceding date indicated for establishment as a state college or institution refer to institutional antecedents of the present college or university. These my have been private institutions or controlled by a governmental entity other than the state. Intermediate institutional developments such as other college affiliation or date of first baccalaureate program offering have been omitted for the sake of brevity.

*The Health Sciences Centers at Buffalo and Stony Brook are shown separately here from their respective core campuses.

NOTES:

All costs exclude the Statutory Colleges at Cornell and Alfred

Tuition charges for Optometry (O.D. program) were calculated the same as Law and Pharmacy prior to 1977-78.

Fees: the figures shown are the college fee for a full-time student. Additionally, students pay a student activity fee which varies from campus to campus

Room: The figures shown are the average costs for a standard double room. Excluded from the average are Forestry and the Statutory Colleges.

Board: Not all campuses have meal plans; of those campuses that do offer meal plans, several plans are often available. The figures shown represent an average charge for a seven-day plan. Excluded from the average are Forestry and the Statutory Colleges.

Trends in Basic Student Charges

1980-1981 Through 1989-90
State University of New York

Notes for Table 90/3:

- Room and Board expenses for commuter students at Binghamton are included under 'other costs'.

- Room, board and other costs for Empire reflect expenses for a 12 month academic year.

- Board plans are not available at the Health Science Centers at Brooklyn or Syracuse. Dollar amounts listed in this category for these schools represent the allowances made within a student budget.
